

MARINE TECH
SPECIALISED **TRUSTED** SOLUTIONS

Company Profile

**Trust is the Foundation
of Our Business**

About us

At Marine Tech, **Trust** is the foundation of our business. We specialise in marine technical services, delivering both mechanical and electronic solutions to the highest industry standards to the offshore oil and gas industry.

With a combined knowledge base of over 50+ years in the marine industry, our team brings proven expertise, precision, and reliability to every project. Our Client and Original Equipment Manufacturers (OEMs) trust us because we understand the demands of the marine environment and consistently deliver dependable, high-quality results.

Being Trusted means:

- Delivering consistent, high-quality results
- Maintaining strict adherence to technical standards
- Operating with integrity and accountability
- Supporting long-term partnerships, not short-term transactions
- Standing behind our work with confidence

At Marine Tech, **Trust** is earned through performance, and performance is built on expertise. That's why industry leaders continue to rely on us as a dependable, professional partner.

Our Company

Marine Tech offers a comprehensive range of services tailored to the offshore and commercial marine markets. Our experienced team operates both locally and internationally, delivering high-quality, reliable solutions designed to meet the demanding requirements of the critical oil & gas sector.

Partner with Marine Tech and you will receive:

- ✓ Highest Industry Standards
- ✓ Mechanical & Electronic Solutions
- ✓ Offshore Oil & Gas Specialization
- ✓ OEM **Trusted** and Certified Engineers

We specialize in Marine Technical Services.

Marine Tech is a Maritime Service provider in Africa, offering a wide range of services to the oil and gas industry. Marine Tech offers a comprehensive range of services tailored to the offshore and commercial marine markets. Our experienced team operates both locally and internationally, delivering high-quality, reliable solutions designed to meet the demanding requirements of the critical oil & gas sector.

Our core services include:

Mechanical Solutions

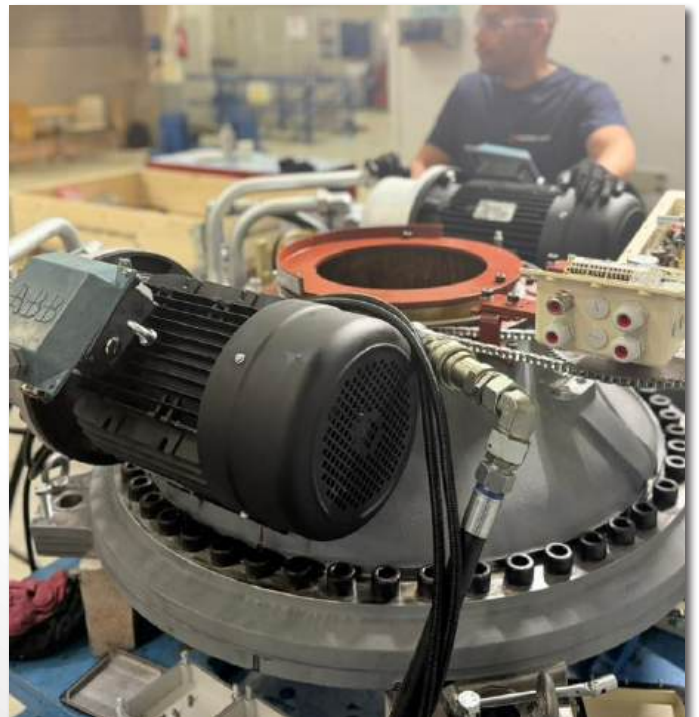

Mechanical overhauls on Steering Gears, Thrusters and Deck Machinery

Comprehensive mechanical services for marine propulsion, steering gear, and deck machinery.

We ensure your mechanical systems operate at peak efficiency.

Our mechanical expertise allows us to deliver turnkey multi-disciplinary projects, managed by our in-house engineers.

We provide 24/7 on-call mechanical field services and operate our own workshop dedicated to propulsion equipment overhauls.

Electronic Solutions

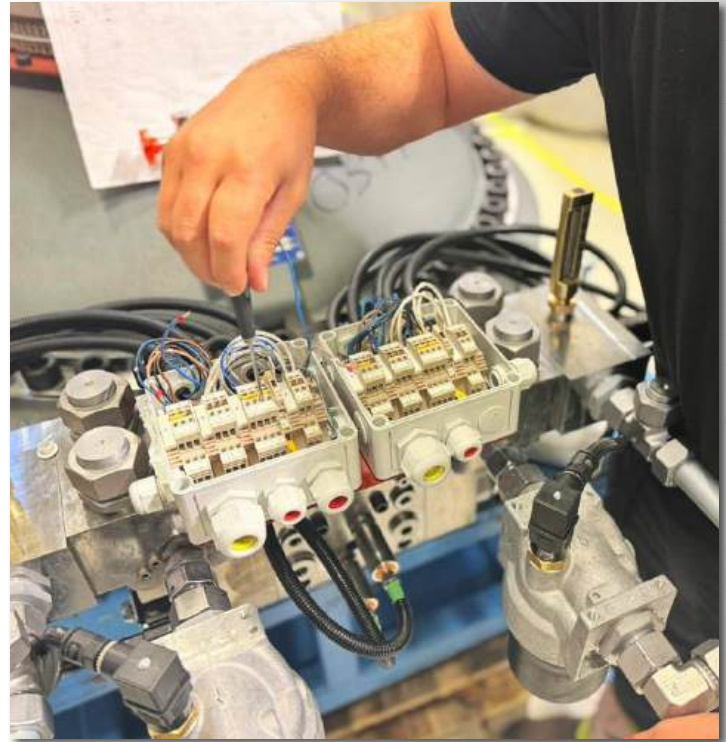

Repair and Servicing of DP and Thruster Control Systems

We are pioneers in marine electronic solutions. We carry out electrical work at shipyards and also take on project-based assignments offshore.

With more than 50 years of expertise in maritime electrical solutions, Marine Tech delivers dependable electrical installation services for all types of vessels including special vessels and workboats.

Our highly trained team is at the heart of what we do, bringing trusted skills and strong work ethics.

Hazardous Area installation & Inspection (CompEx) certified engineers. DP & FMEA trained and certified engineers.

Offshore Support

Turnkey Solutions for Offshore and Commercial Vessels

Specialized technical support for the offshore oil and gas industry.

We understand the critical nature of offshore operations and deliver accordingly.

Our ambition is the driving force behind our offshore vessel solutions. Whatever your goal is out there on the water, we're here to help you achieve it. With innovative thinking tailored to your needs we offer support to the entire process, from installation to operations and maintenance, with safety, reliability and efficiency at top of mind.

System Upgrades & Support

Automation and Instrumentation Support

We offer a comprehensive range of system upgrades, conversions, and mechanical services designed to enhance the efficiency and reliability of your onboard systems and vessel.

Our expertise covers all aspects of mechanical repairs, rebuilds, and upgrades.

Do you have an idea to improve your system's efficiency or performance?

Whether big or small, we're here to help bring your vision to life.

With our extensive combined knowledge of the offshore industry, we are well-positioned to provide responsive, efficient, and professional support to all vessel types and clients operating worldwide. We look forward to building strong partnerships and supporting your operational requirements. Please feel free to contact us to discuss how Marine Tech can assist you.

Our Partners

Marine Tech has partnered with Global OEMs. We have established working relationships with industry leading agencies in order to optimize our service capabilities.

Combining our skills and experience, we deliver real value for customers reliant on independent impartial advice in repair, service and maintenance.

With a skilled mechanical and electrical service engineering team, we can deploy at short notice and deliver exceptional quality services.

We are the official service representatives for **Neuver in Africa.**
